PRESIDENT MESSAGE

Dr. Vrishali D. Bhosale.
President

The institute was founded in 1996 with the clear vision & purpose to create intellectual, powerful, social & responsible personalities. To achieve the goal, the college is striving since its establishment. College is very keen in developing intellectuality within students.

With this basic purpose college is also giving importance to student's creativity & their hidden talents. To meet this end, we are publishing annual magazine 'Aspire' in this academic year, magazine will be a kind of window for the past events, fond memories & creative writing.

I take this opportunity to congratulate the Vice-Principal Dr. Sudhir Atwadkar & his committed staff member for their commitment towards value based quality teaching & unsustained efforts put into ensure that each students are cared in the college.

Thank you!

CHAIRMAN'S MESSAGE

The S.N.B.P group of institute is known for the quality education in the fields of Arts, Commerce, Science & Management Studies, S.N.B.P. institute uses rigorous & intensive integrated teaching methods to develop students as an asset to any business or institute .

With this quality education it is also tremendously vital to give exposure to students innate qualities and expose their creative power for such a reason we are coming with 'Aspire' annual college magazine this year.

It gives me immense pleasure to declare that we are publishing annual college magazine 'Aspire' in academic year 2023-24. In this magazine, students get blaze in the fields like Sports, Literature & fine arts. This magazine is the reflection of S.N.B.P student's inborn skills & their experience.

I hope all the parents & students will go through this magazine and will enjoy the different experience.

Thank you!

Dr. D. K. Bhosale
Chairman

CAMPUS DIRECTOR'S MESSAGE

Adv. Ms. Rutuja D. Bhosale
Campus Director

It is a great pleasure to observe the creative expression in students who had contributed for the annual college magazine 'Aspire.'

S.N.B.P. College of Arts, Commer Science & Management studies is growing on all successful direction & will continue the same.

People reaching this magazine will realize the tremendous changes that are happening in the college campus.

The college has been simply unstoppable in its progress as it has been actively involved in various activities that have brought to light the hidden talents of the college students & staff.

I wish staff and students of the college success in their future endeavors.

Thank you!

CAMPUS DIRECTOR'S MESSAGE

I am glad to know that S.N.B.P. College of Arts Commerce, Science & Management Studies is bringing for the 4th edition of college magazine 'Aspire' this year.

The college magazine is a forum Director which could aptly be used as an exposure student's inner qualities & hidden talent, It will definitely help students to build their personality, I am sure that this magazine will be informative & resourceful.

On this occasion I convey my good wishes to all faculty members, parents & students for the future.

Thank you!

Ms. Devyani D. Bhosale
Campus Director

VICE -PRINCIPAL MESSAGE

Prof.(Dr.)Sudhir Atwadkar
Vice Principal

I am very happy to announce that the college is publishing its 4th edition of annual magazine 'Aspire' this year. A College may reach heights of glory by introducing college magazine "Aspire". Magazine is a kind of memory of past events, programs, activities and so forth. Thus this magazine can make reader travel down the lanes of memory giving rise & surge of emotions of many hues and colors.

I am very happy for the enthusiasm within students and staff who Contributed something to the magazine. Our students have given powerful stories, essays, warming poems, drawings and articles. This shows the positive and creative energy of faculty members and students of the college.

I am very thankful to the management of the college being so Cooperative all the time. I am also thankful to the Chairman Dr. D. K. Bhosale and President Dr. Vrishali bhosale for their inspiration and cooperation without their help the magazine Would not have been come true. I also appreciate faculty members for striving very hard for conducting activities and programs in the college.

Thank you!

EDITORS MESSAGE

Welcome to the publication of our annual college magazine 'Aspire'.

I am very delighted to put this magazine before you, as it is not an easy task. This herculean task has only been possible with the help & co-operation of college management, faculty members & contribution of all students of S.N.B.P. College of Arts, Commerce, Science & Management Studies. 'Aspire' has come forth as an attempt to provide a platform for the minds old & young alike, to express their thoughts & show their creativity. This is only an initial start for a long journey. It also has been designed to present to its readers the year's events that have gone by.

With a sense of pride & satisfaction, I would like to thank & declare that with the support of the management, Principal Dr. D.K. Bhosale & Vice- Principal Dr. Sudhir Atwadkar 'Aspire' has come alive.

I again thank all the contributors & I truly hope that the pages follow will make some interesting reading.

Thank you!

ANNUAL REPORT

2023-24

SNBP College of Art Commerce Science & Management Studies was established in academic year 2008 under the governance of SE Society with the motto "Kindle The Light Of Knowledge & Love" with the UG & PG courses.

SNBPACS is the activity-based college, which enhance the abilities of students through various activities. In academic year 2023-24 the college has organized & Participated in more than 68 plus activities. The college has conducting various programs to build up students' ability, confidence, communication skills & the performance. These programmes help students to make them responsible citizens. College is accredited B++ Grade by NAAC, as well as our college is also Certified by ISO 21001:2018.

In the present academic year, the students Strength is 840 which is more than academic year 2022-23. For the academic development the college provided well equipped Library & Computer Lab to the student with the Lectures. The result of this, 41 students have got Distinction, 78 students have got First Class and 8 are in Pass Class in final year of University Examination.

The college library has provided various reference books as well as more than 15 Magazines and Journals. For the Current Knowledge, college has provided the facility of Newspapers in English & Marathi. Also the students provided the facility of Reading Room and Study Room in the Library every day from 8am to 4pm. The college Computer Lab is well equipped with the 50 Computers & updated software's with the access of the internet. Also, the college provided the extra practice slot for the practicals for the students.

SNBPACS organized various Guest Lectures, Seminars & Presentations to the students to improve their ability & quality. These Guest Lectures and Seminars cover various personal, academic and social aspects. Apart from this, the college has organized various Campaign programs and Campus Interviews for students, are as follows.

Swatch Bharat Abhiyan: - As the central government of India started Swatch Bharat Mohin has participated and contributed the college through various cleaning programming campaign. Dindi Swachata Abhiyan, Anant Chaturthi, River cleaning, Road Cleaning, etc.

SDP: - The college organized various student development program (SDP). Under this SDP, college has conducted Guest Lectures, Debate, Panel Discussion, Quiz, Soft-Skills, Inter Personal Skill Aptitude Test as well as Banner Presentation. Product Launching, Science and Technological Projects.

Value Added Courses: - As the University instructed Add-on courses, the college has included value-added subjects for the students such as Communication Skills, Soft Skill, Personality Development, Tally, Computer Language, Managerial Skills, etc. This courses enhance the ability & behavior of the students with the practical exposure.

Workshops: Every year college organizes internal workshop for various courses. Under these workshops students get the knowledge through practical and technical procedures. These workshops are based on Tally, Communication, Soft skills, Personality Development, Electronics, and Software Preparation.

Industrial Visit: - The college has conducted various industrial visits according to course requirements. This year college visited TATA Motors, Kroys, Infosys Manufacturing Industries & etc.

Sporto-Cultural Carnival: - Every year in the month of December, 4 days' fest of Sporto-Cultural Carnival is organized in college campus. In these 4 days Carnival various events are organized by & for the students. It is the perfect mixture of sports, cultural & social milieu. During this Carnival the students perform & enjoy through Sports, Food Stall, Business game, Rangoli, Mehendi, Painting Exhibition, Science & Technological Exhibition & Cultural programs.

ANNUAL REPORT

2023-24

Sports: -The College always motivated to the students to participate in various sports every year. College organized National & State level sports tournaments as well as participated in outdoor sports. The senior college students participated in University and Private tournaments every year. This year our college students participated in 11 events of University Sport and 3 Private Tournaments. Also, the students participated in 5 different competitions which are related to quiz, debate etc.

In the University Hockey Tournament, the college was the winner of Intercollegiate and 6 players were selected for Zonal Inter University Hockey, 4 students were selected for West Zone Inter university & they played in All India Inter university & Khelo India Tournament, tournament. In the event of Boxing of State (MIT) Tournament one student achieved the Second rank and selected. The team of Boys and Girls participated in Kabaddi, Boxing, Chess, Football and Athletics in Intercollegiate University Tournament.

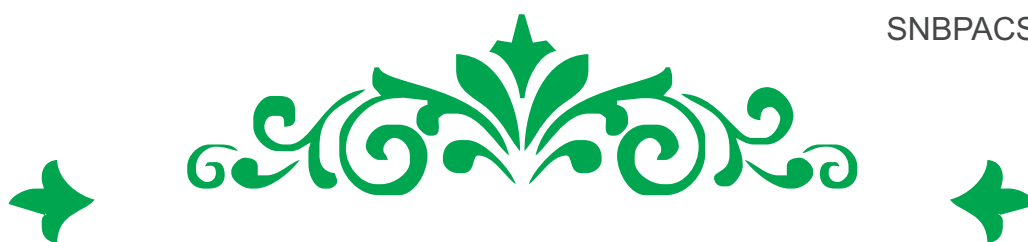

Apart from this the college has organized Medical & Health Check-up Camp, Parent Meet, Self-Defense Training for Girls, Alumni Meet, Convocation Ceremony & Annual Prize Distribution. The college has a MOU for the various activities with various companies. The major focus is on the Placement and Training so the college has a MOU with Quick Heal, Pune Youth Foundation & many other companies.

Every year the college organize a Campus Interview where ICICI Bank, TCS, Quick Heal, ICICI prudential, Wipro, and some Small-Scale Industries recruited the candidates from SNBPACS Campus.

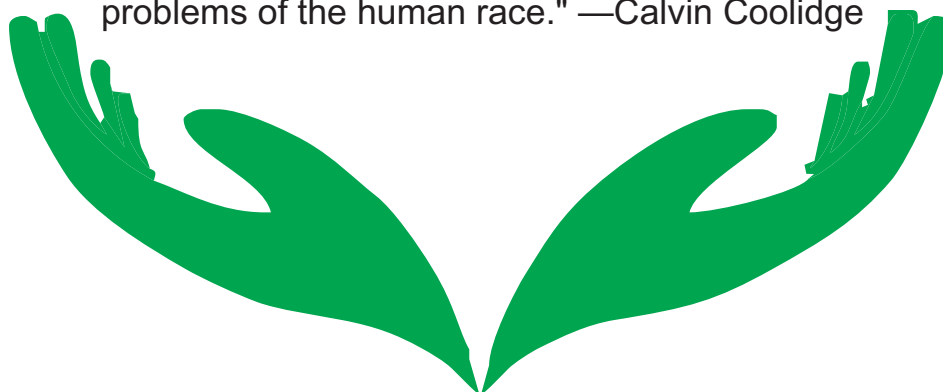

Also, the SNBPACS focuses on Digital World and Social Media, so the SNBP launches the YOUTUBE channel with the name of SNBPACS, also touched with Instagram with name @SNBPACS morwadi. Through the Facebook SNBPACS Morwadi Connected with various past students and current students.

Through all these SNBP ACS is creating opportunities and provided a platform to the students for creating their future.

SNBPACS & TEAMS

"Nothing in the world can take the place of Persistence.
Talent will not; nothing is more common than unsuccessful men with talent.
Genius will not; unrewarded genius is almost a proverb.
Education will not; the world is full of educated derelicts.
The slogan 'Press On' has solved and always will solve the
problems of the human race." —Calvin Coolidge

स्वामींची कृपा.

आठवतो मला तो दिवस.
रात्र होती ती भकास.
रस्त्यावर होतो मी एकटा.
संपले होते धाडस.

अमावस्येची होती ती रात्र.
रातकीड्यांचा होता कीरकीराट.
मन होत अशांत आणि खिन्न.
कारण अंधारात दीसेना मला घराची वाट.

चालत असता रस्त्याने.
जाणवले मला काहीतरी.
वाटु लागले मनात जन्.
पाठलाग करत आहे कोणीतरी.

भयभीत झाले मन.
गळून गेले अवसान.
कळेना आता काय करावे.
हाच मोठा प्रश्नचिन्ह.

शेवटी केले धाडस माघे वळून पाहण्याचे.
आणि पाहीले माघे वळून.
पण कोणीच नव्हते माझ्या माघे.
तेव्हा जिव आला भरून.

थरथरत होते हात.
थरकाप भरला होता शरीरात.
कारण माझ्या कानी पडला.
पावलांसहीत एक वेगळाच आवाज.

आता आपले काय खर नाही.
मन सांगु लागले शरिराला.
कारण तो आवाज भेदत होता.
माझ्या अंतर्मनाला.

थोड्या वेळाने एक आकृती.
आली माझ्या समोर.
हळूहळू त्या आकृतीने.
धारण केले पिशाच्य अवतार.

रक्ताळलेले डोळे तिचे.
फाटके होते कपडे.
उलटे पाय आणि मोठी नखे पाहून.
झाले जीवाचे अक्षरशः तुकडे.

ती आकृती पाहून आली.
माझ्या डोळ्यासमोर भोवळ.
पण जाणवले मला काहीतरी.
जणू कोणीतरी आले माझ्या जवळ.

झाला मोठा प्रकाश.
ति भयानक आकृती झाली नष्ट.
काहीच कळेना मला काय घडत आहे.
कारण मला काहीच दीसत नव्हते स्पष्ट.

सरली ति रात्र, झाली प्रभात.
रात्रीचा त्या थरारामुळे प्राण नव्हते शरिरात.
जाग आली तेव्हा वाटले मला बरे.
कारण मी सुखरूप होतो माझ्या घरात.

कळाले नाही मला कोणी वाचवला माझा प्राण.
आणी ईतक्यात मला दीसले माझ्या दारात.
एक गृहस्थ आणि एक श्वान

तेज होते त्या गृहस्थाच्या चेहऱ्यावर.
डोळे होते त्यांचे बोलणारे.
गृहस्थ वाटला मला ओळखीचा
जन् माझ्याच जवळ इथे कुठेतरी राहाणारे.

'काळजी घे' एवढे बोलून झाले ते त्यांचा मार्गी मार्गस्थ.
त्यांना पाहून मन झाले विचारात व्यस्त.
वाटले माघे वळून बोलावे त्यांना धन्यवाद.
तोपर्यंत अदृश्य झाले होते ते गृहस्थ.

विचार करता करता केले मी स्नान.
स्नान करुन पुजा करण्यासाठी गेलो मी देवघरात.
पुजा करता करता गेली माझी नजर स्वामींच्या फोटोवर.
आणि पाहतो तर काय.
तो गृहस्थ दीसु लागला मला स्वामींच्या चेहऱ्यावर.

दुसरे तीसरे कोणी नसुन स्वामींचा होता तो अवतार.
माझे प्राण वाचवण्यासाठी केला त्यांनी त्या वाईट
शक्तीवर प्रहार.

सर्व प्रकार आठवता मी पाहीले पुन्हा स्वामींकडे.
तेव्हा 'तु भिऊ नकोस मी तुझ्या पाठीशी आहे'
एकू आले मला हे पवित्र उच्चार.

श्री. आदित्य सुनी माने

"महाराष्ट्र माझा"

१ मे १९६० साली "मुंबई सह संयुक्त महाराष्ट्राची" स्थापना झाली.

१९४६ साली "संयुक्त महाराष्ट्र समिती" स्थापना करण्यात आली ती "मराठी भाषिकांसाठी", "संयुक्त महाराष्ट्र" राज्य स्थापन करण्यासाठी. सरदार वल्लभभाई पटेल यांनी नमुद केलं होतं की 'मुंबईचा विकास हा फक्त गुजराती भाषिकांमुळे झाला आहे.

डिसेंबर १९५३ साली "राज्य पुनर्रचना आयोग" स्थापन करण्यात आला तर या आयोगाने १९५५ साली आपला अहवाल सादर करून आपल्या अकलेचे तारे तोडले. अहवालात असं म्हटलं होत की, मुंबईच्या विकासासाठी, मुंबईला गुजराती भाषिकांचा सौराष्ट्रात समाविष्ट करून "मुंबई प्रांत" बनवावा. "बेळगाव-कारवार" आर्थिकदृष्ट्या कर्नाटकला जोडले असल्याने ते "संयुक्त महाराष्ट्र" राज्याला देणे शक्य नाही आणि जर "विदर्भ" दिला तर "नागपूर"चे महत्त्व कमी होईल, तर मुंबई साठी द्विभाषिक धोरण. आयोगाच्या अहवालानंतर नेहरूंनी, सौराष्ट्र सह गुजरात, विदर्भासह महाराष्ट्र आणि मुंबई प्रांत वेगळा असा त्रिराज्य सिद्धांत मांडला आणि "संयुक्त महाराष्ट्र चळवळी"ने पेट घेतला." मा. यशवंतराव चव्हाणांनी म्हटलं होत की नेहरू आणि संयुक्त महाराष्ट्र यात मला नेहरू जास्त महत्त्वाचे वाटतात" आणि " मुंबईसह संयुक्त महाराष्ट्र झालाच पाहिजे " हे चळवळीचे घोषवाक्य बनले.

२० नोव्हेंबर १९५५ मध्ये मुंबईत केलेल्या भाषणात काँग्रेसचे नेते, स.का.पाटील बोलले की "५००० वर्षांनंतर ही मुंबई महाराष्ट्राला मिळणार नाही" तर मोरारजी देसाई यांनी, "काँग्रेस जिवंत असे पर्यंत तरी मुंबई मिळणार नाही" अशी "भीष्मप्रतिज्ञा" घेतली आणि मराठी जनतेचा उद्रेक झाला, २१ नोव्हेंबर ला झालेल्या आंदोलनातील गोळीबारात काही जणांना प्राण गमवावे लागले. जानेवारी १९५६ मध्ये मुंबईला केंद्रशासित प्रदेश घोषित करण्यात आले.त्याविरोधात सत्याग्रहे,आंदोलने,मोर्चे निघाले. लोकांवर सत्तेचा गैरवापर करून अमानुषपणे गोळीबार करण्यात आला. एकूण १०५ लोकांना या चळवळीत आपले प्राण गमवावे लागले.केंद्रीय अर्थमंत्री देशमुख यांनी राजीनामा दिल्यानं चळवळीला बळ मिळाले. पुढे होणाऱ्या निवडणुका लक्षात घेता आणि चक्क ६० कोटी रुपयांचा बदल्यात मुंबईला अक्षरशः विकत घेऊन ,महाराष्ट्राला मिळाली. (भारत-पाकिस्तान फाळणी दरम्यान पाकिस्तानला दिलेली रक्कम होती ती ५५ कोटी रुपये आणि इथे स्वतंत्र भारतात अशी घटना घडली आहे)परंतु बेळगाव-कारवार-निपाणी सोडून १ मे १९६० रोजी, नेहरूंना हवे असलेले "मुंबई" हे नाव वगळून "महाराष्ट्र" ह्या नावावर शिक्कामोर्तब करण्यात आले.आणि "दिल्ली महाराष्ट्रापुढे झुकली"

"भाषावार प्रांतरचनेनुसार "मराठी" भाषिकांसाठी "महाराष्ट्र" राज्याची स्थापना झाली तर खरी पण त्यासाठी १०५ हुतात्म्यांना आपल्या प्राणाची आहुती द्यावी लागली होती हे विसरता कामा नये.आज ही "संयुक्त महाराष्ट्र" अपूर्ण अवस्थेत आहे. ह्या १०५ हुतात्म्यांच बलिदान व्यर्थ जाता कामा नये. ज्या दिवशी "बेळगाव-कारवार-निपाणी" सह "संयुक्त महाराष्ट्र" अस्तित्वात येईल त्या दिवशी या हुतात्म्यांना खरी श्रद्धांजली असेल.न्यायव्यवस्थेवर संपूर्ण विश्वास आहे यात "महाराष्ट्राला" न्याय मिळेल हीच अपेक्षा आहे.

"आत्मनिर्भर-स्वावलंबन"

मोदींनी जनतेला हाक दिली "आत्मनिर्भर"तेची आणि सोशल मीडियाकर पेटले."विदेशी" आणि "स्वदेशी" चे सूर सुरू झाले. खरंतर त्या आधीच जेव्हा "टाटा" आणि "विप्रो" ग्रुप ने "कोरोना" लढ्यासाठी भरीव मदत केली तेव्हाच हा लढा सुरू झाला होता.पण खरी सुरुवात झाली "आत्मनिर्भरता" ह्या घोषणेनंतर.सोशल मीडिया वर , विदेशी वस्तू वा ब्रंड कोणते आणि स्वदेशी कोणत्या यावर लेख चा लेख प्रसिद्ध होण्यास सुरुवात झाली ती "व्हाट्सएप विद्यापीठा"च्या माध्यमातून. दरम्यानच्या काळात "युट्यूब आणि टिकटॉक" यांचा वाद पेटला पण खरेतर हे "आमिर सिद्दीकी वि. कॅरी मिनाती" या दोघांमध्ये शीतयुद्ध चालू झाले होते. तसं पहायला गेलं दोघेही भारतीयच पण, धुणी धूत होते "परदेशी अॅप्स"ची. तर भारतीय लोकांचं दोन्ही "अॅप्स"शी काहीही देणघेण नाही.म्हणजे दोन्ही अॅप्स नी भारतात जम बसवला होताच.पण "यु ट्यूब" हे अमेरिकन तर "टिकटॉक" हे चायनीज हाच तो महत्वाचा फरक झाला आणि एका रात्रीत सोशल मीडियावर "टिक टॉक"बंदीच आवाहन करण्यात आलं. ४.५ असणार रेटिंग १.२ वर कधी आलं ते समजलं ही नाही. भारतीय लोकांनी पुन्हा एकदा(काही दिवसांपूर्वी आरोग्य सेतु अॅप) दाखवून दिलं की "भारतीय" उंचीवर नेऊन ठेवू शकतात तर जमिनीवर ही आणू शकतात. जवळपास ९०% भारतीयांनी "टिक टॉक"बंदीच समर्थन केलं. लोकांनी अर्थशास्त्राची गणित मांडली.

१०% लोकांची मतं होती की एक बंद करून काय होणार आहे, सगळ्या चायनीज किंवा विदेशी अॅप-वस्तूंवर बंदी घालायला हवी. सरकारने आयातच केली नाही पाहिजे आणि खूप काही. लोकांना हे काय अस मध्येच सुचलय.इतक्या दिवस नाही समजलं का ?कोणतं चायनीज-विदेशी आहे आणि कोणतं स्वदेशी. म्हणून यात काही तथ्य नाही आणि संपूर्ण दोष सरकारला देऊन रिकामे झाले.

सरकारने आयात थांबवली तर आपण तेव्हा ही दोष द्यायला रिकामेच असतो."टिक टॉक" ही सुरुवात आहे, त्यानंतर भारतीयांनी ठरवलं तर स्वदेशीचा नारा पुढेही दिलाच तर भारतीय अर्थव्यवस्था(म्हणजेच नागरिक) नक्कीच सुधारेल यात शंकाच नाही.कोणताही ही बदल एका रात्रीत होत नसतो.एका झटक्यात "फक्त स्वदेशी"च याचा अवलंब आपण करू शकत नाही काही वेळ त्या त्यासाठी द्यावा लागेल.

इयत्ता ५वी मध्ये इतिहासात व्याख्या होती, होणाऱ्या आमूलाब बदलास "क्रांती" असे म्हणतात.ती क्रांती होण्यासाठी वेळ द्यावा लागतो आणि मेहनतही.

अहो, खुद्द 'भगवान श्रीकृष्णाला ही महाभारतात धर्मस्थापनेसाठी एक जन्म घ्यावा लागला होता'.एका क्षणात तर नव्हती झाली ना.'छत्रपती शिवाजी महाराजांना सुद्धा स्वराज्य निर्माण करण्यासाठी वेळ द्यावा लागला'.देशाला स्वातंत्र्य मिळायला १५० वर्षे लागली. स्वातंत्र्य काही एका दिवसात नाही भेटलं. वेळ लागेल,स्वदेशीस प्रोत्साहन द्यावं लागेल आणि महत्वाचं म्हणजे १३० कोटी या आकड्यांकडे सकारात्मक दृष्टीकोनातून पाहिलं तर आपण संपूर्ण जग हादरवू शकतो.एखाद्या कंपनीला भारताची बाजारपेठ भेटली तर ती कंपनी कमी कालावधीत मैलाचा दगड मिळवेल कारण भारत हे एक फक्त राष्ट्र म्हणून नाही पाहत तर १३०कोटी हा आकडा पाहतात.१३० कोटी लोकांचा बाजारपेठे साठी कमीत कमी ५० देश फिरावे लागतील.म्हणूनच भारतीय जनता (कोणालाही स्टार-फ्लॉप)काहीही करू शकते.

मा.नितीन गडकरी यांची मुलाखत पाहिली.बोलले काही दिवसांपूर्वी(कोरोना जेव्हा भारतात पसरायला सुरुवात झाली होती तेव्हा) आपण टेस्टिंग किट-व्हेटिलेटर आयात करत होतो,इतकंच काय सॅनिटाइझर,पीपीई किट,मास्क ही आपण आयात करत होतो.पण पुण्यातील महिलेने टेस्टिंग किट बनवलं, व्हेटिलेटर तर खूप उद्योगांनी बनवायला सुरुवात केली.पिटर इंग्लंड सारख्या कंपनीने पीपीई किट-मास्क बनवायला सुरुवात केली,तर १२०० रुपये लिटर प्रमाणे आयात होणारे अल्कोहोल साखर कारखान्याच्या माध्यमातून ३०० रुपये लिटर प्रमाणे उपलब्ध झालेलं आहे.

आता या सर्व गोष्टींमध्ये "आत्मनिर्भर"झालेलो आहोत.

म्हणजे तात्पर्य हे की,भारतात टॅलेंट-कौशल्याची कमी अजिबात नाहीये. गरज आहे ती बुस्टची.येणाऱ्या कालावधीत "स्वदेशी" शब्द भारतीय बाजारात फिरत राहिला तर "क्रांती"होण्यास वेळ लागणार नाही आणि हेच पाहण्याचे औत्सुक्याचे ठरेल.

अनमोल रिश्ते

लोग कहते हैं रिश्ते अनमोल होते हैं,

उनका कोई मोल नहीं होता।

पैसे तो आते जाते रहते हैं,

उनसे रिश्तों का लेन देन नहीं होता।

मैंने जरूरतों के मुताबिक रिश्तों को बनते देखा है,

उन्हीं रिश्तों को पैसे के जाल में दम तोड़ते देखा है।

मैं कैसे मान लूँ की रिश्ता पैसों से बढ़ कर होता है,

मैंने किसी अपने को पैसों के लिए मुझे छोड़ते देखा है।

रिश्तों को मैंने बिखरते देखा है,

उनको मिट्टी के भाव बिकते देखा है,

रिश्तों को मैंने रिश्तों में दम तोड़ते देखा है।

रिश्ते तो बस पैसे और ताकत पर टिकाते हैं,

उसी पैसे और ताकत को मैंने मिटते देखा है,

कोई कैसे विश्वास करे रिश्तों पर,

मैंने रिश्तों को बाजार में बिकते देखा है।

हर मुस्कुराते चेहरे के पीछे कोई गम होता है,

हम सोचते हैं कितना है उनके पास पर कुछ ना कुछ कम होता है।

हम देख के लोगों की खुशी खुद को उदास करते हैं,

क्युकी हम याद नहीं करते हैं की वो भी खुश रहने की फरियाद करते हैं,

फिर भी उन्हें कुछ ना कुछ कम होता है,

क्योंकि हर मुस्कुराते चेहरे के पीछे गम होता है।

DEVELOPING EMOTIONAL INTELLIGENCE : KEY FOR THE SUCCESSFUL ENTREPRENEURSHIP

All of us are well aware of the concept Intelligent Quotient. Intelligent Quotient is useful indicator to judge anyone's intellectual level. Intelligent Quotient is a type of standard score that indicates how far above or how far below, group, individual stands in mental ability. It measures one's ability to reason and solve problems. It reflects how well you did specific test. According to Psychologists there are four types of Intelligence :

- 1) Intelligence Quotient
- 2) Emotional Quotient
- 3) Social Quotient
- 4) Adversity Quotient

Among which Intelligence Quotient and Emotional Quotient are most popular one. Emotional Quotient is the measure of your ability to maintain peaceful relations with others, be responsible, honest, respect and follow boundaries in all relationships, be humble, genuine and considerate.

To develop Emotional Quotient one should mix up with society, be a good listener, try to solve routine problems. Our Emotional Intelligence determines our potential for learning the fundamentals of self mastery and the like. Our emotional competencies are learned abilities : having social awareness or skills for managing relationships does not guarantee that one has mastered the additional learning. The base of leadership is created by building below mentioned pillars of personality :

1. Self Awareness : One should aware of own strengths and weaknesses very well. So that abilities can be better utilized and improvements in personality can be easily done.
2. Managing Destructive Emotions : One should be aware of destructive emotions like short tempered nature, unnecessary worrying for all the things.
3. Developing qualities like Empathy i.e. concern for others feelings, solving routine problems on that basis related with employees.

The book on Emotional Intelligence was first time written & published by Daniel Goelman. He argues that Emotional Intelligence of people was more important than their Intelligence Quotient in order to be more productive at workplace. People who were well adjusted emotionally were more likely to have better leadership skills, mental health and job performance. On the other hand Intelligence Quotient is required for completing jobs.

However, the successful personalities in the world are having the ability of managing people, keeping them satisfied at workplace, getting work done in time, developing their potential abilities at workplace etc. The concept is popular in Corporate Sector and this new angle of personality is considered important.

High Emotional Quotient develops Leadership Skills. Self awareness, Self management i.e. managing one's emotions and tempers, Social awareness includes knowing the society very well and relationship management i.e. maintaining healthy relations among seniors, juniors and all stakeholders are the four pillars of Emotional Intelligence. It is not inborn ability. Emotional Intelligence have surprisingly powerful impact on our lives.

Other benefits of good Emotional Intelligence are like positive emotions have been linked with better health, longer life and greater well being. On the other hand chronic anger, worry increases the risk of developing heart diseases with raised blood pressure affecting blood vessels. As per latest research it is important to have high Emotional Quotient to live long healthy life.

SOCIAL MEDIA AND YOUTH

Recently, we can't ignore social media in our daily lives. Almost every time we use it. Teenagers have demonstrated more amount of internet usage and have consumed a lot of time of using social media site. It is a big part of daily life for lots of teenagers.

Social media doesn't affect all teens the same way. Use of social media is linked with healthy and unhealthy effects on mental health. These effects vary from one teenager to another. Social media effects on mental health depending on what a teen sees and does online, the amount of time spent online, psychological factors, such as maturity level and any preexisting mental health conditions and Personal life circumstances, including cultural, social and economic factors.

Healthy Social Media

There are many potential benefits of social media use in youths. It can provide a positive connection and community with others who lacks social support offline or are lonely, who are going through a stressful life. Sometimes social media platforms help teens to express themselves, connect with other teens locally and across long distance, learn how other teens cope with challenging life situations and mental health conditions. Social media platforms allow students to connect with professionals in their field of interest. This can be invaluable for career development, as youths can learn from experts, seek advice, and explore job opportunities. Social media has played a crucial role in raising awareness about social and political issues. Teens can engage in activism and advocacy efforts more easily by sharing information and organizing events online.

Unhealthy Social Media

While Social media has benefits, excessive use can also adversely affect the teenager's life. Social network take the teen's total attention and concentration and divert them to non-educational, unethical and useless chats, wasting time by random search and distracting from doing their job. As a social network has introduced many attractive applications like 3D games, advertisements, online shopping, live TV online etc. The user can use their applications for free, So teenagers or game fans addicts so use these applications and do not concentrate on their education. By using a lot of screen time, they could also cause high blood pressure and anxiety which could be dangerous to health. Spending too much time on social media can distract teens from essential activities such as academic work, hobbies and maintaining face-to-face relationships. It can disrupt their daily routines including sleep deprivation and fatigue and ultimately a detrimental impact on mental health, contributing to increased levels of stress, anxiety and even depression.

Social media often presents an idealized version of often people's lives, leading teenagers to develop unrealistic views of their own lifestyle and personality which can create a fostering feelings of inadequacy and low self-esteem.

In conclusion, social media has both positive and negative effects on teenagers' mental health. By promoting responsible use of social media, open communication, and a healthy self-image, parents can help their teens navigate the online world while safeguarding their mental well-being.

COMPREHENDING THE WORLD VIA MATHS..

Thinkers from all over the world and throughout history have contributed to the body of knowledge and practice known as mathematics. It provides us with a means of comprehending patterns, measuring relationships, and making future predictions. We use arithmetic to comprehend the world, and the world helps us understand math. There are connections throughout the planet. Common math demonstrates these relationships and opportunities. The sooner young people can apply these abilities, the more probable it is that our economy and society will continue to be innovative.

Think about all the ways that arithmetic enables us to make sense of the world. You'd be surprised at how frequently we apply math without even recognizing it! How often have you checked your bank account statements or looked up the most recent COVID-19 numbers in the past several months? It's possible that your kids are learning how to figure out how many hours there are in a week or how many hours they can spend playing video games vs zoom. Everybody uses math on a daily basis.

Algebra can explain the rate of water contamination and the annual number of sickened persons in a developing country that drink that water. The science underlying architecture around the globe can be understood through a study of geometry. The number of people killed in earthquakes, wars, and other global tragedies can be estimated using statistics and probability. It can also forecast revenue, the dissemination of ideas, and the potential repopulation of once endangered species of animals. Math is an effective instrument for communication and comprehension on a global scale. Students can use it to tackle challenging and real-life challenges and make sense of the world. Math becomes more relevant and interesting for pupils when it is rethought in a global framework, providing a unique perspective on the standard material.

Although math is frequently studied as a pure science, it is usually applied to a wide range of fields, not just physics and engineering. For example, it is meaningful to investigate exponential growth and decay (the rate at which things develop and die) in relation to population increase, disease spread, or water contamination. Students can apply the math in a real-world setting and gain a better grasp of global events. For example, they can relate a disease that is spreading in India to their own knowledge of how quickly cholera can spread in a crowded area. Actually, including a study of development and decay in lower level algebra—which is typically covered in algebra II—might allow more students to

E-COMMERCE

E-commerce, or electronic commerce, has revolutionized consumer behavior and corporate operations. This digital revolution removes geographical constraints and offers unmatched ease by allowing for the online purchase and sale of products and services. E-commerce has expanded globally as a result of increased internet connectivity, giving companies of all sizes access to a wide consumer base. The convenience of perusing merchandise, evaluating costs, and executing safe transactions from the comfort of one's residence is also advantageous to consumers.

E-commerce's 24/7 accessibility is one of its main benefits; it enables companies to run around the clock and serve a wide range of clients in various time zones. Furthermore, the expansion of e-commerce has been further hastened by the accessibility of mobile devices, which allow people to purchase on the go. E-commerce platforms make use of a range of payment methods to improve flexibility and security of transactions.

Notwithstanding these advantages, the E-commerce sector's competitiveness has spawned inventions including tailored suggestions, focused advertising, and effective supply chain management. The consumer experience has been further enhanced by the incorporation of artificial intelligence and data analytics, which has streamlined the shopping process and predicted preferences.

The issues of cyber security, data protection, and logistical optimization are still present as e-commerce develops. Nonetheless, there is no denying that e-commerce has had a significant overall influence on the world economy, transforming conventional business structures and creating a vibrant online industry that isn't going anywhere. E-commerce platforms make use of a range of payment methods to improve the flexibility and security of transactions.

English Literature: A Mirror of Society

English literature serves as a captivating reflection of human life, capturing the essence of various experiences, emotions, and perspectives. Through its diverse range of genres, styles, and themes, it offers readers a profound insight into the complexities of existence in a manner that resonates across cultures and time periods. At its core, English literature mirrors life by portraying the myriad facets of human nature. Characters, whether heroic or flawed, embody the struggles, triumphs, and conflicts that individuals encounter in their own journeys. From Shakespeare's tragic protagonists like Hamlet and Macbeth to Jane Austen's keen observations of societal norms in "Pride and Prejudice," these literary figures become vessels through which readers explore the depth and breadth of human experience.

Moreover, English literature mirrors life by addressing universal themes that transcend temporal and geographical boundaries. Love, loss, ambition, justice, and mortality are just a few examples of themes that recur throughout literary history. Through the lens of literature, individuals can grapple with these existential questions and derive meaning from their own lives. Furthermore, English literature serves as a reflection of society, offering valuable insights into the cultural, political, and social dynamics of different epochs. Works such as Charles Dickens' "Oliver Twist" shed light on the injustices of Victorian England, while Chinua Achebe's "Things Fall Apart" explores the impact of colonialism on African communities. By examining the societal norms, values, and power structures depicted in literature, readers gain a deeper understanding of the world in which they live.

Additionally, English literature functions as a mirror of individual identity and self-discovery. Through the exploration of characters' internal struggles and personal growth, readers are invited to reflect on their own aspirations, fears, and moral dilemmas. Whether it's the coming-of-age journey depicted in J.D. Salinger's "The Catcher in the Rye" or the existential quest for meaning in Albert Camus' "The Stranger," literature provides a framework for introspection and self-exploration. Moreover, English literature reflects the evolution of language and culture over time. From the poetic beauty of William Wordsworth's romantic verse to the experimental prose of contemporary authors like Zadie Smith, literature captures the ever-changing landscape of human expression. By studying the works of different periods and movements, readers gain insights into the cultural heritage and linguistic innovations that shape the English language today.

In essence, English literature serves as a multifaceted mirror that reflects the richness, complexity, and diversity of human life. Through its portrayal of characters, themes, society, and language, it offers readers a profound glimpse into the human experience across time and space. As individuals engage with literature, they not only enrich their understanding of the world but also deepen their appreciation for the intricacies of existence.

Mr. Atuj Jadhav
Asst. Professor
BA Department

Literature: An Appliance for Societal Reformation

It has long been recognized that literature has the ability to trigger social change. Authors have used the written word to strengthen empathy among book lovers and to inspire activism via the deftness of narrative. Plentiful literary movements and individual works have been instrumental in changing cultural norms, influencing public opinion, and promoting justice throughout history. This article will inspect the ways in which literature has glinted social change by questioning cultural conventions, igniting action, and encouraging empathy. It will examine the massive influence literature has had on promoting social change by concentrating on particular literary movements and notable works. Literature states social empathies; naturally it is bound to exercise some optimistic influence on our mind and attitude. Society responds to literature in a breathing way. A stimulating poem generates general effect on society. It provokes our feelings and enthusiasm for well-being. Literature obliges as a mirror reflecting society's complexities, permitting readers to scrutinize and figure out cyclical social issues. Literature provides a nuanced exploration of numerous societal challenges, such as discrimination, inequality, and injustice, through storytelling.

First and foremost, literature opens our eyes and makes us comprehend more than just the apparent. It helps us grasp the wide world outside, surrounding us. It changes our viewpoint about belongings, people and actions. In the process, these written works have kindled social awareness and nurtured social change. Eventually, works like *Candide*, *Uncle Tom's Cabin*, and *Cry the Beloved Country* have shaped history. The enlightenment era was no stranger to literary works of this nature, but it was Voltaire's *Candide* (1759) that truly sparked the idea of a democratic society. The Voltaire and Rousseau utilized their writing to criticize the suppressive monarchy and religious organizations and The "*Candide*" book by Voltaire (1759) is a best example of literature that questions social standards. Voltaire challenged readers to question the status and consider the possibility of a more equitable society by exposing the hypocrisy and corruption of the ruling class via satire and humor. "*Candide*" cleared the path for knowledgeable and social advancement by of firing an alternative viewpoint and emphasizing the shortcomings of the existing system. Similar to this, Rousseau's well-known book "*The Social Contract*" contended against the concept of divine right and promoted the social contract idea. Rousseau opposed the conventional social hierarchies by challenging the legitimacy of outright monarchy and promoting the notion of popular sovereignty. His writings prompted readers to think critically about the political system in place, to weigh up their own rights and liberties, and to ponder the prospect of a more equal society founded on the consent of the governed. Authors Challenging societal norms Literature was a key component of the enlightenment movement that challenged long-standing social standards Voltaire and Rousseau utilized their writing to criticize the exploitative monarchy and religious establishments. These type of writings prompted readers to think critically about the political system.

The freedom of speech wasn't the only issue that society once had to deal with. In fact, it was in the elimination of racial subjugation that literature truly played its part. Harriet Beecher Stowe's *Uncle Tom's Cabin* (1852) played an essential role in the fight against slavery in the United States. The novel's vivid portrayal of the brutal realities of slavery encouraged the collective conscience of the nation. Readers were challenged with the cold-heartedness of the institution, leading many to join the abolitionist cause. But in all of history, it isn't just the racial gulfs that literature has struggled so hard against. Virginia Woolf's *A Room of One's Own* (1929) addressed the systemic obstacles facing women writers and the larger issues of women's autonomy and independence. Books like Simone De Beauvoir's *The Second Sex* (1949) have critically scrutinized the social constructs that disseminate gender inequalities. These works, among others, placed the foundation for the feminist movements of the 20th century. These decisive books began the push for equal rights, reproductive autonomy, and gender equity. Literature has constantly performed as a catalyst for social modification. Whether challenging tyrannical regimes, encouraging for human rights, or promoting gender and racial equality, books have had the power to stimulate. They have the capability to educate people and assemble them behind a common cause. From the enlightenment era to the digital age, literature continues to serve as a dynamic instrument for shaping the world we live in. Hence the Literature has the power to promote social change as well as preserve culture and tradition. We can come across other viewpoints and opinions through reading literature. This can aid in nurturing empathy and understanding for people and cultures other than our own.

Ultimately, Literature can sensitize us to the wounds of poverty, of social stigma, of injustice. It can fuel our empathy and broaden our world-view. It also turns abstractions like “the poor” (or, for that matter, “the wealthy”) into virtually real individuals and help us to build connections with them. It gives individuals common ground for discussing and analyzing problems. It can explore alternatives and helps us discover the flaws and strengths of various strategies. As long as authors continue to write with passion and purpose, literature will remain an unconquerable force for social advancement.

Mr.Bhagwan Piraji Waghmare

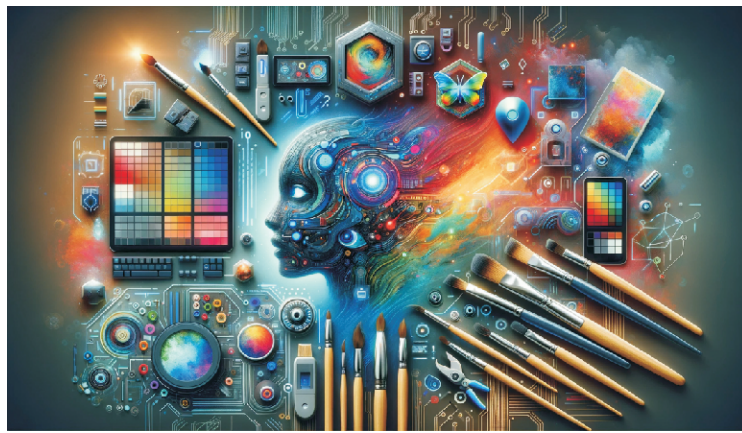

**Assistant Professor
BA Department**

EFFECT OF DIGITIZATION ON CHANGING STUDENT ATTITUDE IN LEARNING DEVELOPMENT

In digitization world student changes there attitude towards learning and education, student find favorable and unfavorable condition and find shortcuts in each every situation. Digitization learning is more engaging and effective as students can learn at their own space and in their preferred way. With digital technology social media is in today's highly connected society has brought about changes in students learning attitude.

The positive characteristics of digital world social media sense of community through networking. Student can access all their study material online including prerecorded video, learning software, techniques and resources. By personalizing study students try to show their academic strength, better acknowledge their shortcuts and they are choose to attend online classes instead of physically present at an institution.

Negativity however there are some issues surrounding media literacy, accessibility that must be addressed for social media to effectively incorporate in education towards students learning. Digitization of education does not come without its shortfalls; increasing duration spent on electronic devices is the high risk for students. It influenced highly measure of health, student performance, become self-centric, loss interaction to sociality or community and share personal information it might be misused.

So achieving balance digitization has its place in classroom, a balance must persist to ensure that student develop healthy habits, Non virtual social activity, physical activity and interaction must be encouraged either inside or outside classroom. So students have to mean balance between “digitization world with social media” and “traditional education “in their learning which become a bright future and their survival become satisfactory..

TECHNOLOGY : YESTERDAY'S SOLUTION & TOMORROW'S HOPE

What is technology?

Technology refers to the application of scientific knowledge, tools, and techniques to solve problems, accomplish tasks, and achieve objectives. It encompasses a wide range of processes, methods, materials, and systems used to create goods, services, and experiences that improve human life and enhance productivity.

What has technology actually done?

Technology has actually changed our lifestyles and has changed the meaning of productivity in each and everyone's life. With the help of technology we can do so much more in just a small amount of time. Now here we are in the times of modern technology, where we are actually able to communicate so well, video calls with those who are miles away. We are growing healthier and living a better lives that no one has actually expected.

What solutions has technology actually provided ?

Productivity Improvements: Technology has enabled automation, processes in industries such as manufacturing, agriculture, and service sectors. This leads to increased efficiency and productivity, reducing labor costs and time requirements.

Access to Information: The internet and digital technologies have democratized access to information, making vast amounts of knowledge available to people worldwide. Search engines, and educational platforms provide instant access to a wide range of information, empowering individuals to learn, research, and make informed decisions.

Healthcare Solutions: Technology has transformed healthcare delivery, with innovations such as telemedicine, electronic health records (EHRs), wearable health monitoring devices, medical imaging technologies, and precision medicine. These solutions improve patient care, diagnosis, treatment, and disease prevention.

Safety and Security: Technology plays a crucial role in enhancing safety and security across various domains, including homeland security, public safety, cybersecurity, and personal safety.

Environmental Sustainability: Technology offers solutions to environmental challenges, including renewable energy sources (solar, wind, hydro), energy-efficient technologies, waste management systems, water purification technologies, and sustainable agriculture practices. These solutions help mitigate climate change, conserve resources, and protect ecosystems.

What are we looking forward in the world of technology?

Virtual Reality (VR) refers to a computer-generated simulation of an immersive, three-dimensional environment that users can interact with in a realistic way. VR technology typically involves the use of headsets or goggles equipped with screens and motion sensors to track the user's movements and adjust the virtual environment accordingly, creating a sense of presence and immersion. As Virtual Reality is actually touching the sky with advance outcomes through it. Virtual reality is not just used in Entertainment, Educational field and in Gaming, but also in Healthcare where we can operate and directly see the entire process been done inside one's body. Apart from this one can actually sit at home and travel the whole world with the help of VR.

Artificial Intelligence (AI): AI and machine learning are expected to continue advancing, enabling more sophisticated automation, predictive analytics, natural language processing, and computer vision applications. We might see AI being integrated into various aspects of daily life, from personalized healthcare to autonomous vehicles and smart home systems.

5G and Beyond: The rollout of 5G networks will unlock faster speeds, lower latency, and greater connectivity, enabling innovations in mobile computing, autonomous vehicles, Internet of Things (IoT) devices, and augmented reality (AR)/virtual reality (VR) experiences. Beyond 5G, research is ongoing for even faster and more efficient wireless communication technologies.

Clean Energy and Sustainability: Continued advancements in renewable energy technologies, energy storage solutions, and sustainable materials hold promise for addressing climate change and environmental challenges. We may see innovations in solar power, wind energy, energy-efficient buildings, and carbon capture technologies.

Space Exploration and Colonization: The exploration and colonization of space are expected to accelerate, driven by advancements in rocket technology, spacecraft design, and space habitats. We may witness missions to Mars, lunar bases, asteroid mining, and the development of space tourism.

Ms.Chitra Umesh
BBA(CA) Department

MYSTERIES OF SPACE

What can be called the secret of space? Probably, something that was discovered during a space flight, by satellite or with the help of telescopes, but not sufficiently studied yet due to some circumstances. Some of them are listed below:

Where Does The Universe End?

Scientists have learned to calculate the size of planets, satellites, and some stars, but how to determine the size of the Universe? Research to date has proven that we can only see part of outer space but do not know where the universe ends or even what shape it has.

There May Be A Multiverse

Is our Universe the only one? That is probably the main mystery of space. There are other planets besides the Earth and two trillion galaxies besides our Milky Way. It is logical to admit the idea that, in a certain space, there are many universes or parallel worlds. If so, then our universe is just one of them.

Dark Matter

Everything around us consists of protons, neutrons and electrons, that is, of baryonic matter. But this rule does not work for outer space, as only 5 per cent of it consists of baryonic matter, whereas what makes up the rest is still unknown. Dark matter does not absorb or emit light but exhibits a gravitational effect on the movement of stars and clusters of galaxies. In other words, dark matter is one of the unexplained mysteries in space.

Dark Energy

- it is a form of energy;
- it evenly fills 70% of the space in the Universe;
- it does not form clusters;
- It has a gravitational-repulsive effect; that is, this energy is the opposite of gravitational attraction
- No less curious are the mysteries of space associated with dark energy. It is an even more mysterious and unusual substance than dark matter. So far, the following has been discovered:

Rectangular Galaxy

Most of the observed galaxies have the form of irregular spots, disks, or three-dimensional ellipses. But in 2012, Australian astrophysicist Lee Spitler, using the Japanese Subaru telescope, discovered the galaxy LEDA074886 in the shape of a rounded regular rectangle. No one knows how it was formed.

Ms. Priti Vishwakarma

HIGHWAY HYPNOSIS

Highway hypnosis is psychological phenomenon that causes a driver to go into a trance like state while driving. It was first described in a 1921 article that mention the phenomenon of road hypnosis.

We suggest the white phosphate powder they implement in road lines. at a night that use for driver distraction they not go in highway hypnosis and showing the direction they implemented in nether land. This idea will help reduces the number of accidents let's make a software that include some data on highway accidents caused due highway hypnosis.

The concept was first described in a 1921 article that mentioned the phenomenon of "road hypnosis". A 1929 study, *Sleeping with the Eyes Open* by Walter Miles, also addressed the subject, suggesting that motorists could fall asleep with their eyes open and continue to steer. The term "highway hypnosis" was coined by G. W. Williams in 1963.

Highway hypnosis in this stage. When the driver zones out while driving a vehicle without remembering what occurred in that specific period.

We suggest to use white phosphate powder they implemented in road lines. They glowing at night. At a night that use for driver distraction and showing the direction. They implemented in nether land. use of advertisement board on highway and roads. for example: hotels, dhabas. Make a software that include some data on highway accidents caused due highway hypnosis, include in mapmyindia either google map

The cause of most of the accidents is said to be highway hypnosis or sleepiness during driving. So far, 98 mishaps have taken place due to sleep hypnosis, while nine have died in such incidents.

Second major cause of deaths on Samruddhi Mahamarg is over-speeding and tyre burst. Between the mentioned period, 68 cases of over-speeding were reported, of which 11 people were killed, 72 wounded and 19 grievously injured. As many as 55 accidents took place due to tyre burst, leaving nine dead.

According to the data provide by the highway police 358 accident have taken place this highway during this five months from jan to may , 173 accidents by highway hypnosis.

I wish this information is usually accurate and knowledgeable, this information will help to make people aware about highway hypnosis.

HOW GOOGLE CONTROLS THE LIFE?

Undoubtedly, Google has improved everyone's intelligence, but it has also made us more sedentary. Undoubtedly, the internet has changed our thought patterns. The majority of individuals no longer possess the ability to read and comprehend anecdotes. The ability to read deeply, which was once shared by all, is now difficult. The focus begins to stray. Our lives have become slow due to speedy Google searches, links, and hyperlinks. The technology we believed we were utilizing to improve our lives began to change the way we interacted with others and behaved in social situations. Every day, we use Google to look up common information that is also available in books and newspapers. Utilizing all search engines, not just Google, should be done so as little as possible. Utilizing these search engines have to be done in a methodical manner. They provide food for thought, but they also influence how people think.

When it comes to networks and the Internet, Google has been the most used search engine worldwide. The most comprehensive platform for information collecting has been this one. Google is the best resource for any kind of information you're looking for. academic, literary, artistic, news, job opportunities, and other sectors. Everything a reader could possibly want is available on Google. It's a fun truth that posting from the last few years on Google is not random. It handles the content quality, needs, trends, and even the aesthetics of the page. This indicates that the most active process on Google right now is even SEO.

Ways to limit our daily use of Google without compromising our productivity

1. Read Newspaper: Reading the newspaper is preferable to reading the news online, however how dull and unpleasant this may sound. The eyes are less straining from it. It helps us avoid using devices in the morning and sharpens our minds. Not only that, but it also facilitates writing things down even when you're not in the mood to start right away and allows you to wake up without the stress of a hectic day.

2. Coffee in the morning surrounded by nature Consider why you don't need to use your phone right away when you get up. After waking up, turn off your phone and take in the splendor of the outdoors. After expressing gratitude for this morning, get a cup of coffee and begin to become conscious of your thoughts. Don't just wake up and ask Google what the temperature is, what's new in the market, how much shares are worth, etc. Live in the present, put away your digital devices, and roam freely in the outdoors.

3. Spend three hours detoxing: Take a break from searching Google. Just don't look for anything for three hours at a time. Don't do it, even if it's essential. For a little while, just be at ease. Engage in activities that don't need a network connection. Make time to read, write, and even learn new things besides using Google. For a while, this might seem difficult, but watch how the time increases from three hours to ten hours and beyond.

4. Pay Attention to Screen Time Continue Monitoring Your Screen Time. This may come as a shock to some, but you need to monitor how much time you spend in front of the screen and specifically how much time you spend on Google to find out how many minutes you spend using the search engine during the course of a day.

‘ ETHICS OF AI ! ’

I wonder if technology wouldn't have take place. Our life has become easy with all the internet revolving and paths of technologies are used on daily basis. It's easy to connect with people online and make conversation happen. One can actually express each and every word to the world. I see people looking for new updates on technologies to implement it on themselves. People often buy latest smart-phones and internet connections to have quick or speedy access so to be able to use cyberspace accordingly.

It's insane how we indeed spend most of our time on the internet. We believe that it is time saving and reduces hard work.

But I truly agree when 'Elon Musk' said that "AI can be dangerous". In his recent interviews, he spoke about all the facts that establish humans over AI. He also mentioned that, "AI will create a situation where no job is needed". AI is one of the biggest human threats. We see how human follows new trends and actually try to learn them, while AI is completely busy with new creations. Robots are provided citizenships and can literally perform 100X work than us. As we keep promoting AI, I think of the day when they also might start ruling us.

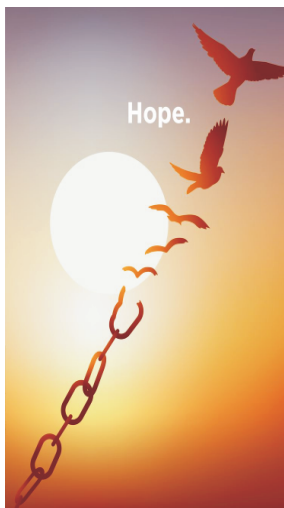

Ms. Madhura Salunke .

NEVER GIVE UP

I know that life
Is getting you down
and you want to smile
but only frown.
The pain may come
And the tears may flow.
But never give-up
And you will know.....
God loves you more
Than words can say.
He loves your heart
and soul each day
He' ll never leave
He' s your best friend
His arms will protect
You to the end

Ms. Asiya Shaikh.

COUPLET ON MOTHER TERESA

She was the one, an anchor through thick & thin a
pact,
Being gentle and genuine was her only act.

Kindness and love was in her blood,
What a saint she was to save others.

She still hasn't been forgotten about,
For she was a soul that led the sorrowful to see the
light.

Her action are still talked about to this day,
To the poor and he misfortune, she was ray of sunshine
that glowed eve them.

Mr. Ahlam Khan

WOMEN'S

You look at me and call me
oppressed,
Simply because the way I'm dressed.

You know me not for what's inside,
You judge the clothing I wear with
pride.

My body's not for your eyes to hold,
You must speak to mind not mine
feminine mould.

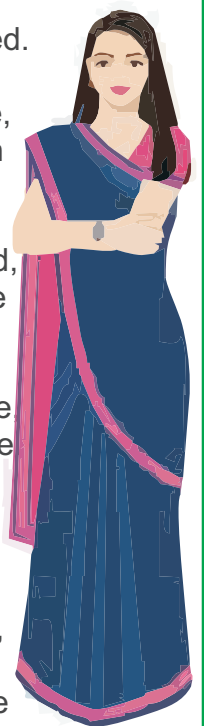

I'm an individual I'm no man's slave
It's Allah's pleasure that I only crave

I have a voice sol will be heard,
For in my heart carry his word.

No one tells me to dress this way,
It's a law from god that I obey
I can climb mountains or cross the
seas

Expand my mind in all degrees.

Oppressed is something I'm truly
NOT,
For liberation is what I've got.

SUNSET WALK

On a stary evening,
I had a pleasant walk,
With the golden sand below me,
And the blue sky above.

Waves camerolling at me,
Thereforewas I overjoyed.
Look, there the turtles so tiny & sweet,
hustling towards the sea.
They seem to be in a hurry,
They have to reach their home too.

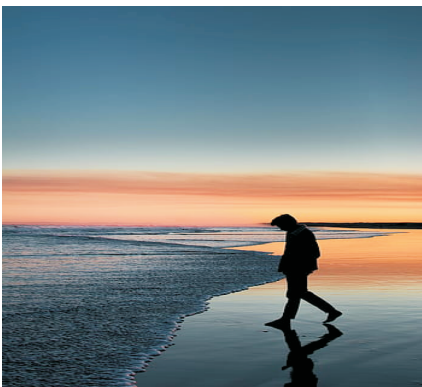

Fishermen towards the seashore,
Finishing all their day's chores.
Ships and Boats full of fishes,
As hard work pays them too.

Stood thereby the tall street lights.
That brightened the lonely roads,
For people who couldn't see their path
And we should do this too.

It was past an hour now,
The blue sky turned orange.
Gradually I could see the sun falling asleep..
In Mother Natures lap.

Oh! What a beautiful sight to Admire, That God
has made for all.

Ms. Joylyne Mascarenhas.

A JOURNEY THROUGH THE DREAMLAND.

I dreamed a dream last night,
A beautiful scene at my sight.
The sacrifice of our brave men,
Lead us to heaven.

The whole nation overjoyed,
For the victory was won,
But Also mourned,
For the nation had lost its men.

Hats off to you dear soldiers,
For your service to all,
To pick us up,
Whenever we fall.

Far from your loved one's you stay,
For your safety and security they pray,
For the protection of the country, awake you stay,
So that enemies don't make us their prey.

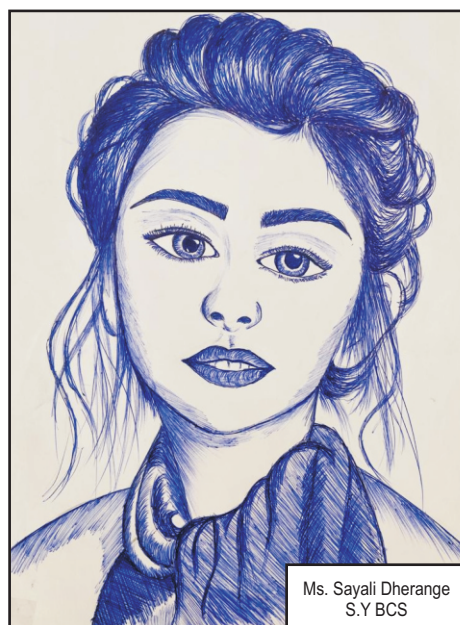

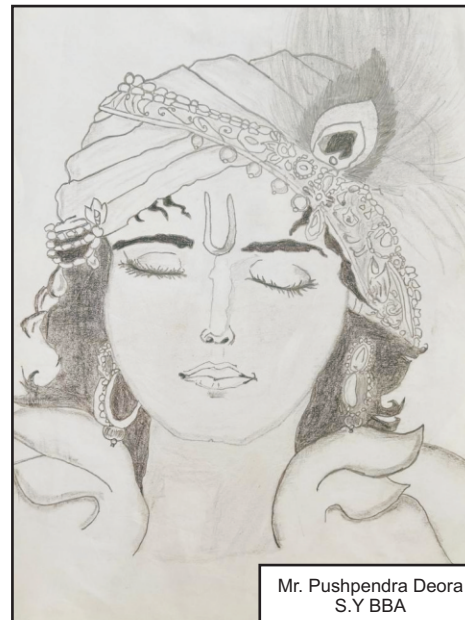

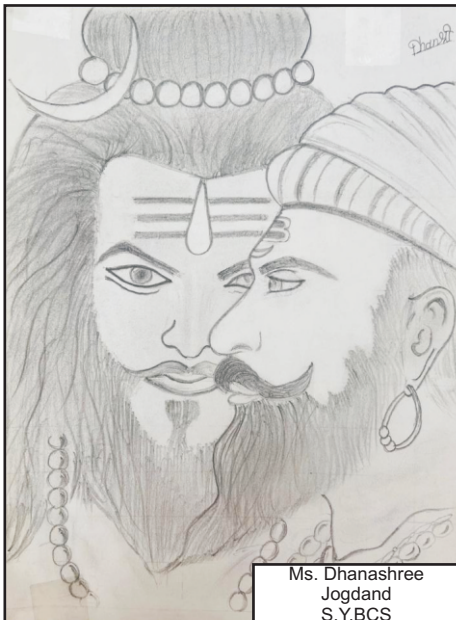

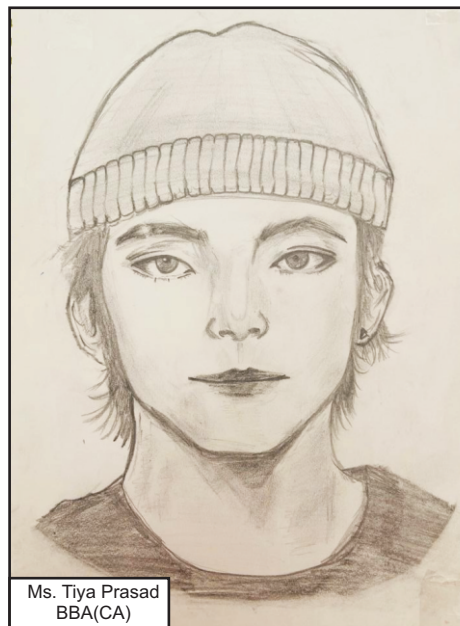

Don't worry dear Bravemen,
The whole nation prays for you.
You all are like Angels on Earth,
As you fight the Devils too.

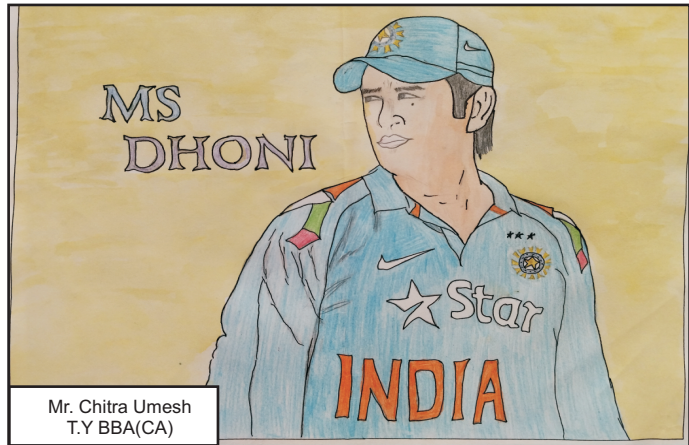

The dark clouds will vanish,
And the setting sun will rise too.
Don't worry dear Bravemen,
The Almighty is with you.
